NOTE: Current space and personnel allocations for the above staffs remain unchanged.

Fiscal Year 1952 Budget.

The fiscal year 1952 budget presentations for the above staffs will not include requests for personnel in excess of current T/C authorizations. Careful scrutiny of current authorizations will be made in each staff with a view to reductions where possible. Particular study will be given to the PMS personnel security units and the personnel division, Administrative Staff, in view of reduction in work load which should be evident in another year.
